

COLORADO
STONE QUARRIES

QUARRIED & MANUFACTURED IN COLORADO

MADE IN USA

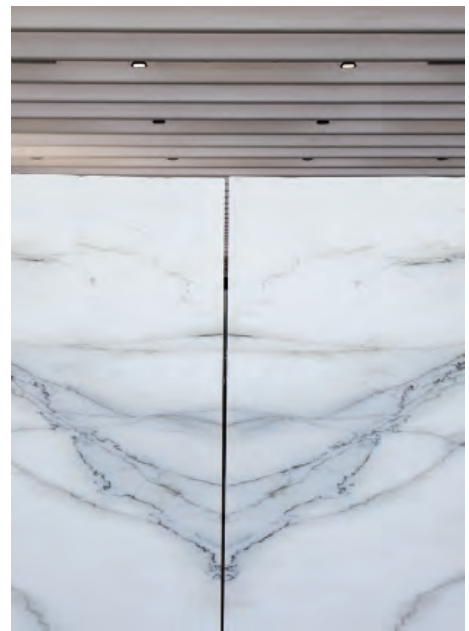

The Pride of America Mine, operated by Colorado Stone Quarries is located above the upper Crystal River Valley, outside the town of Marble. After many years of sitting dormant, the quarry was acquired by and reopened in 2011 by R.E.D. Graniti. Quarrying techniques have changed since the Yule marble was first quarried in the mid-1880s. Historic quarrying techniques used at that time are now replaced with diamond studded cutting and drilling machines. Modern machinery increased production as well as eliminated unintended damage to surrounding material caused by historical quarrying techniques.

THE BEAUTY
OF NATURAL
STONE

A DIAMOND IN THE ROUGH

CALACATTA LINCOLN®

Calacatta Lincoln® marble is a new type of Colorado Yule marble that was discovered in 2012 with the opening of a new portal (the Lincoln Gallery) located above the historic mine. With its elegant and delicate veining, Calacatta Lincoln® marble has become one of the most desirable marbles and a primary standard in the market, especially

in the United States. This material has a warm white background with brown-grayish veining. The vein structure ranges from medium to wide veining and is the hallmark of Calacatta Lincoln® marble cutting direction is either wavy or 45-degrees. It is the perfect choice for kitchen countertops and large projects.

AVAILABLE PRODUCTS:

Slabs: 2cm, 3cm, 5cm

Cut-to-Size

Tiles: 4"x4" up to 24"x48" Calibrated Tiles

CALACATTA LINCOLN[®] SILVER

Lincoln[®] Silver and Aspen Grey are both gray marbles quarried in areas located between the historic Washington Gallery and the Lincoln Gallery. These selections have similar structure and hardness of Statuario Colorado. Their color background may vary from dark to light

bluish grey. The main difference between the two materials is the amount of veining each has: Aspen Gray tends to be darker with little to no veining, while Lincoln[®] Silver generally has lighter background tone with a lot of "Calacatta type" movement.

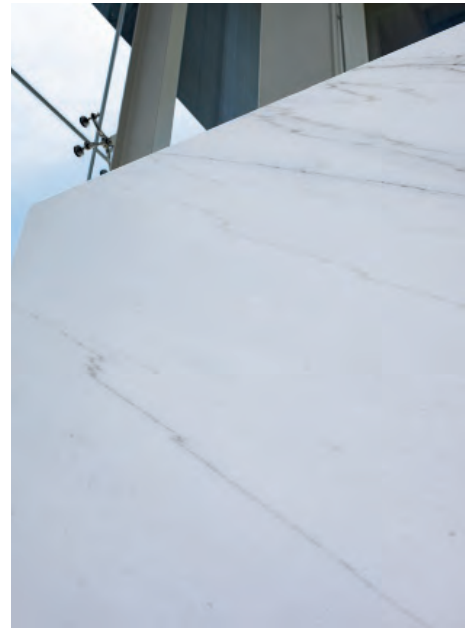

AVAILABLE PRODUCTS:

Slabs: 2cm, 3cm, 5cm

Cut-to-Size

Tiles: 4"x4" up to 24"x48" Calibrated Tiles

CALACATTA LINCOLN® 45° VEIN

Calacatta Lincoln® marble is a new type of Colorado Yule marble that was discovered in 2012 with the opening of a new portal (the Lincoln Gallery) located above the old mine. With its elegant and delicate veining, Calacatta Lincoln® marble has become a reference in the market and one of the most desirable marble, especially

in the United States market. This material has a warm white background with brown-grayish veining. The vein structure ranges from medium to wide vein and is the hallmark of Calacatta Lincoln® marble. Cutting direction is either wavy or 45-degrees. It is the perfect choice for kitchen countertops and large projects.

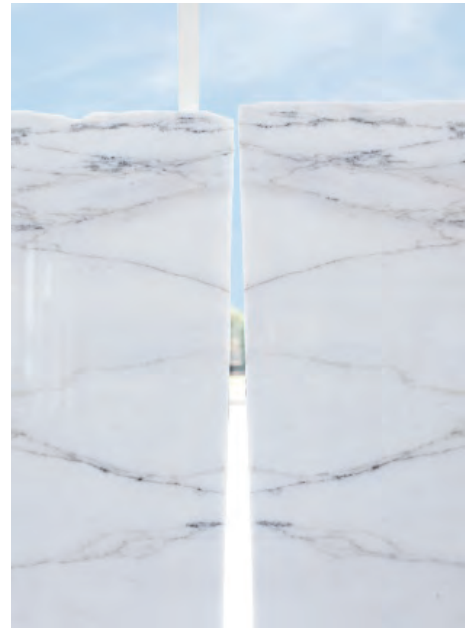

AVAILABLE PRODUCTS:

Slabs: 2cm, 3cm, 5cm

Cut-to-Size

Tiles: 4"x4" up to 24"x48" Calibrated Tiles

CALACATTA GOLDEN

Calacatta Golden is famous for its pure white background with narrow and well-marked golden veins that run throughout the entire slab. Calacatta Golden is a timeless classic white marble, extracted from the original historic galleries and the modern Lincoln Gallery. Due to its characteristics of beauty and durability, this stone was used

on many historical projects such as the Lincoln Memorial in Washington D.C., the Colorado State Capitol in Denver, and the Tomb of the Unknown Soldier in Arlington, Virginia. Most of the time, the Calacatta Golden blocks are produced with regular "wavy" movement and only occasionally are blocks mined with diagonal 45-degree veining.

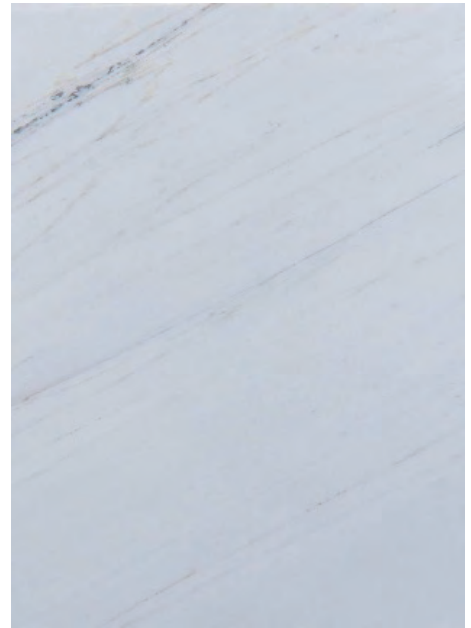

AVAILABLE PRODUCTS:

Slabs: 2cm, 3cm, 5cm

Cut-to-Size

Tiles: 4"x4" up to 24"x48" Calibrated Tiles

CALACATTA GOLDEN 45° VEIN

Calacatta Golden is famous for its pure white background with narrow and well-marked golden veins that run throughout the entire slab. Calacatta Golden is a timeless classic white marble, extracted from the original historic galleries and the modern Lincoln Gallery. Due to its characteristics of beauty and durability, this stone was used

on many historical projects such as the Lincoln Memorial in Washington D.C., the Colorado State Capitol in Denver, and the Tomb of the Unknown Soldier in Arlington, Virginia. Most of the time, the Calacatta Golden blocks are produced with regular "wavy" movement and only occasionally are blocks mined with diagonal 45-degree veining.

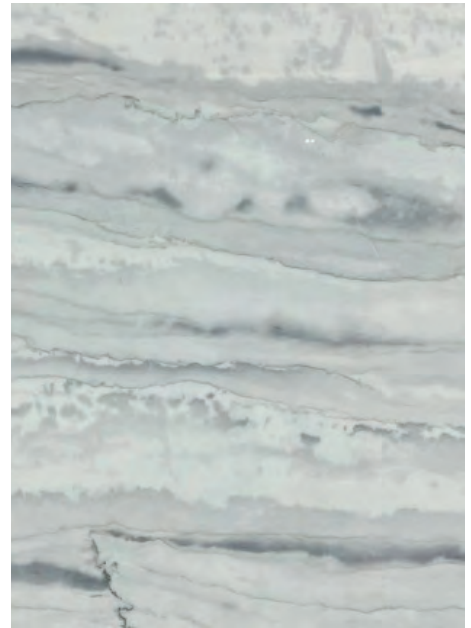

AVAILABLE PRODUCTS:

Slabs: 2cm, 3cm, 5cm

Cut-to-Size

Tiles: 4"x4" up to 24"x48" Calibrated Tiles

ZEBRINO LINCOLN®

Zebrino Lincoln® marble is the newest discovery of marble within our Pride of America Mine! This material is distinctly characterized by unique patterns of white

and grey tones and horizontal veining. Zebrino Lincoln® marble is an extremely unique and exclusive material to Colorado Stone Quarries and the USA!

AVAILABLE PRODUCTS:

Slabs: 2cm, 3cm, 5cm

Cut-to-Size

Tiles: 4"x4" up to 24"x48" Calibrated Tiles

STATUARIO COLORADO

Statuario Colorado is another high quality marble with a predominant background color of bold white. Statuario Colorado does not show much move-

ment compared to Calacatta Golden and Calacatta Lincoln® marble selections. The subtle and delicate veining color varies, from black/gray to light brown.

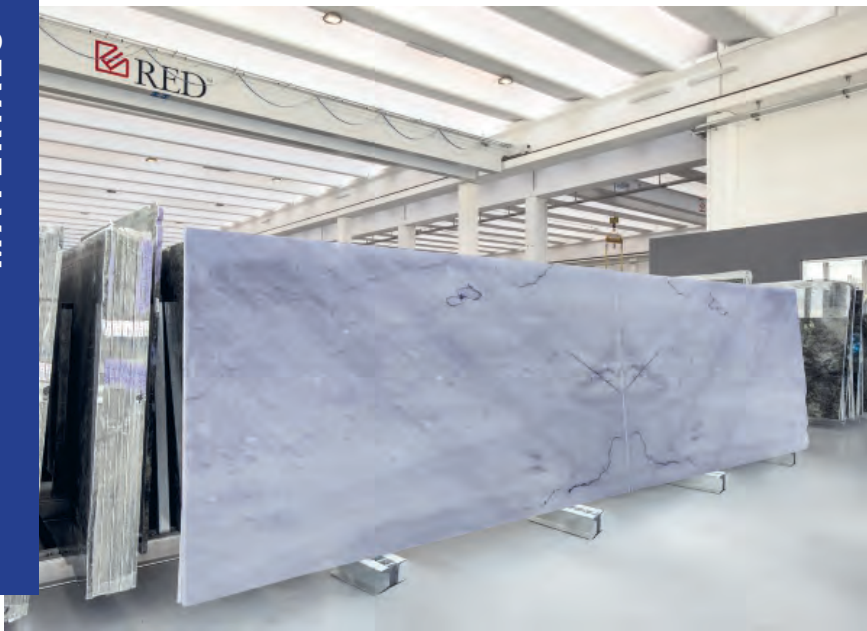

AVAILABLE PRODUCTS:

Slabs: 2cm, 3cm, 5cm

Cut-to-Size

Tiles: 4"x4" up to 24"x48" Calibrated Tiles

ASPEN GREY

Lincoln® Silver and Aspen Grey are both gray marbles quarried in areas located between the old Washington quarry and the Lincoln Gallery. These selections have similar structure and hardness of Statuario Colorado. Their color background may vary from dark to light blue-

sh grey. The main difference between the two materials is the amount of veining each has: Aspen Gray tends to be darker with little to no veining, while Lincoln® Silver generally has lighter background tone with a lot of “Calacatta type” movement.

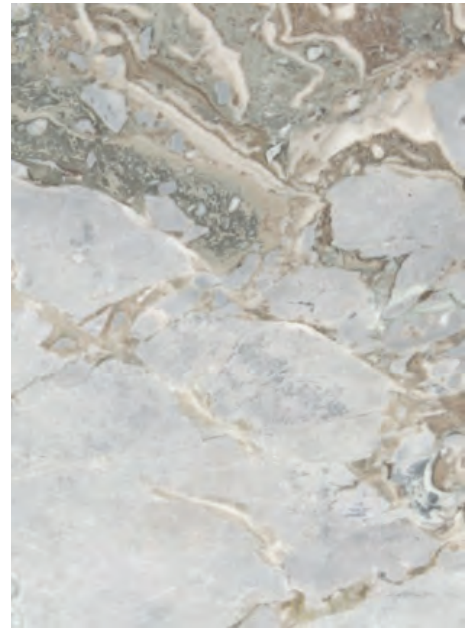

AVAILABLE PRODUCTS:

Slabs: 2cm, 3cm, 5cm

Cut-to-Size

Tiles: 4"x4" up to 24"x48" Calibrated Tiles

CRAZY HORSE

Crazy Horse is the newest Colorado Yule marble produced at the Pride of America Mine and is a new entry in our marble portfolio. Crazy Horse was recently discovered in the new Hamilton Quarry. This special and fascinating brecciated marble is unique with a very limited production schedule. This se-

lection has a palette of colors ranging from white to grey with green and brown tones that determine the overall pattern. This is a very special marble because each block has its own individual and distinctive characteristics, thus making Crazy Horse a unique and exclusive U.S. made marble.

AVAILABLE PRODUCTS:

Slabs: 2cm and 3cm only

Tiles: 4"x4" up to 24"x48" Calibrated Tiles

Marble Mosaics are a historical and classic art form of natural stone throughout the world. The unique coloring and veining of our marble mosaics creates an artistic style for homeowners and commercial spaces. We have a variety of subway, hexagon, and herringbone patterns as well as a variety of trim and fixture options and are the perfect addition to your marble inventory. Each product creates an elegant look suitable for any architect or designer's project type or style preference.

STONE BUSINESS

SLABS AND TILES CAPACITY

SLABS 300 PER DAY (1M SF/YEARS)
TILES 4500 SF PER DAY (1M SF PER YEAR)

In 2021, Colorado Stone Quarries opened their own Marble Slabbing facility in Delta, CO; approximately one hundred years after the original mill in Marble started processing the columns for the Lincoln Memorial located in Washington D.C. Our state-of-the-art factory extends over 40 acres. A warehouse of approximately 140,000 square feet hosts the best Italian technology and machinery to cut and finish our blocks where they will be processed into slabs, tiles and cut-to-size blocks.

CONSOLIDATION OF NATURAL STONES

SOUNDSTONE is a complete 100% impregnation process that significantly improves material mechanical strength and drastically reduces material porosity.

SOUNDSTONE® does not contain resins or solvents, nor does it produce smoke dangerous to humans and the environment.
